# DOE Former Worker Medical Screening Program

---

## **NEW MEXICO**

### **Sandia National Laboratory Former Workers**

#### **Population Being Served**

The Sandia National Laboratory (SNL), located in Albuquerque, New Mexico, was established in 1949 as one of three DOE Defense Program laboratories (Los Alamos and Lawrence Livermore are the others). Sandia's original purpose was ordnance engineering and turning the nuclear physics packages created at the other laboratories into deployable weapons. Sandia has also been involved in stockpile surveillance and applied research activities for nuclear weapons. Sandia's current mission is to develop, engineer, and test the non-nuclear components of nuclear weapons.

#### **Organizations Providing Services**

Medical screening for former workers at the Sandia National Laboratory in Albuquerque, New Mexico, is to be conducted by the Johns Hopkins University Bloomberg School of Public Health and the University of New Mexico.

#### **Current Status of the Program**

This program began medical screening in 2006 and is ongoing.

#### **Contact Information**

Former Workers from this DOE site who wish to receive screening are asked to call toll free at 1-877-500-8615.
